

SeraSnow SP 14

INCI : Vinyl Dimethicone

/ Methicone Silsesquioxane Crosspolymer

Applications

Skin Care

Sun Care

Make-up

Benefits

Easy to disperse and formulate

Soft feeling - Smooth rolling

Oil absorbing

Description

SeraSnow SP 14 consists of internal spherical silicone elastomer powder and an external shell of silicone resin powder. SeraSnow SP 14 is designed to improve the agglomeration of the silicone elastomer powder. So It has excellent dispersibility and flowability.

SeraSnow SP 14 can be included in many products to enhance the skin feel, spreadability, absorption and soft-focus-effect of the finished product. It is excellent for wrinkle-smoothing formulations.

Typical Properties	
Appearance	White Powder
Non-Volatile Content	Min. 99%
Average Particle Size	12 μm
INCI Designation	Vinyl Dimethicone / Methicone Silsesquioxane Crosspolymer

Typical Properties

The values mentioned are not intended for use in preparing specifications. We have made every effort to ensure these values are correct as of the revision date of this document.

Method of Use

It is recommended to first disperse SeraSnow SP 14 powder in base oil. It can be also added independently in silicone phase or oil phase. If you want to know how to formulate with this material, please contact us.

Recommended Usage Level

Usage level is highly dependent on application and is usually between 0.5 and 5%.

Packaging

7kg pails.

Storage and Shelf Life

SeraSnow SP 14 should be stored below 30°C and not be allowed to freeze. Shelf life of the un-opened container is 24 months from the date of manufacture. If you wish to use this product after this time, please contact us for details.

Toxicity and Handling

Please see our SeraSnow SP 14 safety data sheet for more details. Information for safe use of this product is not included in this document. Before handling please read container labels and the safety data sheet for physical, environmental and health hazard information.

Limited Warranty Information

Although every effort has been made to ensure that the information contained within this data sheet is reliable, we cannot be held responsible for the correctness of the information or for any loss, injury or damage which may result from its use. Suggestions of uses should not be taken as inducements to infringe any particular existing patent.
