

Remover YY900

Product Description A gelatinous paint remover with a strong dissolving effect on almost all kinds of old paints and varnishes.

Recommended Use As a paint and varnish remover. Can also used for reusing of stiffened paint brushes and rollers.

Physical Properties

Finish and Color Milky semi-transparent liquid

Solid By Volume Approx. 4 %

Theoretical Spreading Rate Not relevant for this product. See below “Application Method”.

Specific Gravity Approx. 1.2

Flash Point Non-flammable

Application Details

Surface Preparation Do not apply above 25 °C/77 °F of temperature condition, under direct sunlight or strong wind as the evaporation will proceed too rapidly.

Thinning Do not dilute.

Application Method Apply it in a thick layer by brush and leave it for 5 ~ 10 min until the paint or varnish film can be removed with a scraper.
On very thick layers of old paint, or if the softened paint dries up, repeat the above process. Consumption is depending on the nature and thickness of the paint or varnish to be removed.
As a rough guide, a spreading rate of 3 ~ 5 m²/L is indicated.

Subsequent Treatment

- Wood : Wash down thoroughly with a weak solution of ammonia water(oak, teak and mahogany may be discolored by ammonia), followed by rinsing with fresh water.
- Steel : As above.
- Brushes and rollers : Rinsing thoroughly in fresh water.

Shelf Life 12 months

Remarks

- Handle with care.
- Avoid contact with skin and eyes.
- Avoid prolonged breathing of solvent vapors.
- Use with adequate ventilation.
- Respiratory protection is recommended during application in confined spaces or stagnant air.

Issued April 2008
